

Inglorious Geeks - Episode 7

1) Greetings

2) Jason's Corner

- Blizzard's blue posts
 - Pre-patch is live! We all get to relearn our characters and healers are a bit more fun.
 - Current dungeons and raids have been weakened to make it easier for us to adapt to the new changes.
 - Legion doomsayers are live!
 - Major addon's were fairly up-to-date quickly.
 - Collection appearances for Wrath and before are only present if you got an achievement that would indicate you got that drop. :(
 - Master Loot in 7.0 requires a "guild group", the same group make-up for guild achievements and guild challenges.
 - +1 character slot
 - Shirts are becoming BoE
 - All creatures and NPCs can now be tapped by up to 5 other characters
 - Stranglethorn Fishing Extravaganza temporarily disabled
 - Burning legion invasions and Demon Hunter Early Access will launch mid August (no later than August 17)
 - New login screen is decent
 - Spell and ability animations are cool
 - Icy-veins has class guides for Legion for those who aren't sure if they're using the right rotation or talents.
- Random facts:
 - For 1962 to 1977 when JFK instituted PAL encoding on nuclear weapons the combination code to fire the missiles was 00000000.
 - The Motion Picture Academy refused to nominate Tron for a special-effects award because, according to director Steven Lisberger, "The Academy thought they cheated by using computers"
 - Illegal prime numbers exist. These numbers represent information which is forbidden to possess or distribute such as the prime that is used to bypass the digital rights management schema used on DVDS.
