 - Current Invasions great for leveling your toons.
 - Lvl 96 to 100 in 4 invasions though did have full rested xp.
 - New Legion Pre-Expansion Quests - gave me 700 ilvl gloves. Dalaran is now moved over Karazhan!
 - Don't forget to install your HandyNotes Legion Rares and Treasures addon before you start playing Tuesday. :)
 - Patch 7.1 has 3 major pieces: Karazhan, a small raid and additional quests.
 - Karazhan is a Mythic dungeon with a weekly lockout.
 - First small raid won't be released till 4th week. Next raid, Nighthold will release early 2017.
 - Probably want to run Mythic+ dungeons for the first few weeks while waiting for raids to release.
 - Melee will be stronger in Mythic+ dungeons while ranged will be a little strong in raids.
 - Mythic raid at 20 now.
 - Servers look like they're being updated to provide better performance with multiple versions of the same zones running on the same server. Zones will be scaled in level so population will be distributed across the different zones.
