

Inglorious Geeks - Episode 15

1) Greetings

2) Jason's Corner

- Blizzard blue posts
 - WoW Arena European Championship ends today.
 - Addon - Angry World Quest - Adds filterable list of world quests to your quest log.
 - Darkmoon Faire returns this week!
 - Throw Glaive damage was nerfed 30% for demon hunters even though they struck it from the patch notes. Tooltip is right but damage isn't.
 - Seeds reduced to 2.5% for all herbs except Felwort which is 25%
 - Horde Deathwheel still not available for new Horde members due to legal obligations. Alliance can buy their bike for 100k

 - Arcane Mage hidden Artifact Appearance! Including polymorphing specific mobs in each zone and randomly locking parts of the quest. The look of the staff is a sheep. The sheep version screams randomly when you polymorph. It is fairly hilarious.

 - Outlaw Rogue Hidden Artifact Appearance is nice looking.
 - My druid specs are pretty sweet though looking over various ones they're all pretty awesome. Look for your class and spec and see if someone figured out how to unlock it.
