i++) Video Game News with Jason

- World of Warcraft
 - If you're bored at a little before 12am PST (3am EST) you should head over to the Legerdemain Lounge and look for Sheddle Glossgleam. At this time he'll leave his regular spot and head to the lounge for a drink where a chest will spawn with a Shoe Shine Kit toy.
 - If you'd like to know about the new bosses in Tomb of Sargeras Blizzard has [a post](#) giving us a preview of the new bosses. You can also find the link on the battle.net launcher.
 - Overwatch Anniversary event is now live with new skins. I really like the Genji & Hanzo skins
- PCGames reported on how PlayerUnknown's Battleground made \$34 million in April, more than Overwatch or CS:GO.
- PlayerUnknown's Battleground last thursday released its second Early Access update adding a new sniper rifle, VSS, which has a built-in 4x scope only in care packages and uses 9mm ammo! Balance-wise the Vector and Winchester's power were reduced while the AKM's damage was slightly increased. Cheek pads can now be added to the SKS sniper rifle, tactical stock for M416 and Vector and recoil mods can

be applied to the AKM, SCAR, M16 and HK416. Also a new scope rendering method has been introduced allowing for greater aim precision.

- Destiny 2 will not run at 60fps on the PS Pro aiming more for 4k display support meaning it'll be prettier but users may not experience the better gameplay offered by lower latency and higher level of precision response.
- The PC version of Destiny 2 will offer 4k support, unlocked framerates, control remapping, text chat, adjustable field of view, and 21:9 monitor support and other detailed PC settings.

i++) Chris Talks Summer Movie Preview

i++) April's D&D News

- Critical role Tal' Dorei campaign setting book is set up for pre-order on amazon! Release date is September 12th 2017!
- Dragonfire the D&D Deck-Building Game. Dragonfire combines the vast lore of the D&D universe with the fast play of a deckbuilding game. Players choose from several classic fantasy races, from dwarf to elf, half-orc to human, and assume one of the quintessential roles of cleric, rogue, fighter, or wizard. Equipped with weapons, spells, and magic items, players begin their adventure along the famed Sword Coast, then journey to other Forgotten Realms locations, such as Baldur's Gate, Neverwinter, and Waterdeep. Along the way characters can level up, find additional equipment, learn new feats, and much more. Built on the award-winning, critically acclaimed Shadowrun: Crossfire game engine.

i++) Jason's Techy Talk

- SSD drives vulnerable to Rowhammer-like attacks corrupt user data.
- Chipotle says 'most' of its restaurants were infected with credit card stealing malware.
- Mark Zuckerberg calls for universal basic income in his Harvard commencement speech.
- Scientists develop technology that burns natural gas with no CO2 emissions using a combustion method called chemical looping combustion (CLC). CO2 can be isolated during combustion without having to use any additional energy meaning it can then be stored.
